MONITORING AND REPORTING

The School head shall prepare progress monitoring reports, through the learner-beneficiary class advisers, to be included in the Quarterly SMEA.

SUSTAINABILITY

This programs sustainability can only be ensured through sustained partnership among school -community stakeholders especially the City Government.

Dropouts among schoolchildren are one of the most complex issues confronting the Philippine educational system. This problem has had a long-term impact on school efficiency. Early school dropout rates are on the rise, particularly in impoverished and depressed rural communities, where children are compelled to leave school to supplement family income, robbing them of their entitlement to a basic education.

Every school needs a partner.

Every Child at Risk of Dropping-out needs an intervention.
